### About The Project

Education 4.0 for Youth will create a comprehensive mapping of the digital and technological competencies of high school students in Kahramanmaraş.

### Events To Date

Kick-off Meeting  
September 2021 Kahramanmaraş, Turkey

### Completed Activities To Date

Comprehensive surveys were created and translated to the languages of all project partners.

### What's Next?

The second TPM will be held in February in Skopje. Surveys will be integrated in to the digital platform and data will be collected through the surveys on digital platform.

## PROJECT OBJECTIVES AND INTELLECTUAL OUTPUTS

### Skills Competency Map

A digital platform and its content will be designed and built to support the Education 4.0 for Youth project. It will be linked to the Education 4.0 for Youth website with a companion mobile app. The digital platform will feature archives of ready references and resource materials.

### Digital Platform

A needs analysis will be administered by digital survey tools to query needs and gather comments about digital and technical skills from the target groups -schools, teachers, youth (students) and major industry employers.

### New Teaching/Learning Methodology

Based on the results of the survey analysis, feedback and other data, a team of experts from Teknokent, Trend Educational Resources, teachers and industry representatives will collaborate in the design of a new teaching / learning methodology to better meet the educational needs of 21st century youth. It will include the instruction and inclusion of the digital and technical skills that employers want and expect from new employers.
